

Job Title: Two Interns (m/f/d), Global Public Assets Team, AIM SE Munich

Allianz Investment Management (AIM) is the internal investment manager of the Allianz Group, responsible for managing the risk/return profile of its approx. € 700 bn investment portfolio. We develop, manage and implement the investment strategy for Allianz's policyholders worldwide - sustainably and responsibly. Our global network of more than 500 employees from over 60 countries is organized in regional hubs located in Munich/Stuttgart, Milan, Minneapolis, Paris, and Singapore. It offers multifaceted career opportunities for outstanding investment talents.

AIM provides the perfect opportunity to embark on or continue your international career. AIM continues to grow and supports its employees to do the same. We believe that work should be rewarding, and that good work should be rewarded. We offer opportunities and strive for excellence. And our actions are guided first and foremost by high ethical standards and our sense of commitment to society.

Job purpose/role

You will be part of the Investment Team based in Munich with focus on public equities and fixed income. Members are very international and located around the globe. In this role you will cover a variety of tasks including investment data management, preparation of market research and support initiating investment proposals for local insurance portfolios in the context of the group strategy. Within AIM's global network you will share the public equities and fixed income expertise.

Key responsibilities

- Contribute to data analytics for equity and fixed income market movements, performance measurement and ongoing portfolio management.
- Contribute to the development and implementation of the global investment strategy of Allianz in the equity and fixed income space.
- Support the preparation of investment cases through qualitative and quantitative analysis of equity and derivative markets as well as within a wide range of fixed income segments (from sovereign to credit to EM and FX).
- Update and improve the derivatives monitoring tools
- Perform market analysis and your own research projects.
- Support internal strategy and financial market communications.

Key requirements

- **Qualifications:**
 - Highly proficient data analytical skills with genuine interest in data is a must.
 - Interest in capital markets and investments. Fixed income, public equity or derivatives know-how would be a plus.
 - We are looking for people with initiative who can work independently within a very international and dynamic environment.
 - You have an inquisitive mind and you learn quickly.
 - Strong communication skills and abilities to give and take feedback
- **Experience:**
 - You must be registered as student for the entire duration of the internship.
 - You have completed your undergraduate studies in business administration, economics, or mathematics with solid credentials.
 - Previous work experience in the financial industry is a plus.
 - Fluent in English is a must, other languages are a plus.

Additional Information

In order to consider your application properly, we kindly ask for the following documents from your side: CV, Cover Letter, Employer testimonials / references or recommendation letters (if any), University grades/transcripts of records and high-school transcript (if possible) and your current Certificate of enrollment. Please upload these documents when applying for the role.

Entry date: April 2024
Duration: 6 months
