

Job Title: Intern (m/f/d) Investment Operations / Middle Office

Allianz Investment Management (AIM) is the investment management arm of the Allianz Group, responsible for managing the risk/return profile of its approx. € 700 bn investment portfolio. Our global network of more than 500 employees in over 60 countries is organized in regional hubs located in Munich/Stuttgart, Milan, Minneapolis, Paris, and Singapore. It offers multifaceted career opportunities for outstanding investment talents.

AIM provides the perfect opportunity to embark on or continue your international career. AIM continues to grow and supports its employees to do the same. We believe that work should be rewarding, and that good work should be rewarded. We offer opportunities and strive for excellence. And our actions are guided first and foremost by high ethical standards and our sense of commitment to society.

Job purpose/role

The Transactions Securities team is part of Investment Operations and responsible for operational processes in the investment management value chain, namely settlement of investment transactions as well as middle office activities in the context of derivatives trading. The team's daily responsibilities result in continuous close cooperation with many Allianz departments involved in the investment value chain and in a daily exchange with international brokers and custodian banks.

In addition to its operational responsibilities, the Transaction Securities team is closely collaborating with IT colleagues to further develop the existing IT infrastructure and to digitize or automate processes as far as possible.

Key responsibilities

As an intern in Middle Office, you will work closely with colleagues from Group Treasury & Corporate Finance, Investment Accounting, Cash Management and primarily support your Middle Office colleagues in :

- Post trade activities for derivatives in the portfolio of Allianz SE and other Allianz entities
 - Reconciliation and release of derivatives (bilateral and cleared)
 - Timely matching and settlement of all derivatives
 - Implementation and monitoring of collateral management
- Optimizing and digitizing operational processes
- Maintaining and developing the IT infrastructure for derivatives transactions
- Implementing new regulations

How can you make an impact:

- Get involved in daily operations and take responsibility for individual processes
- Contribute actively to implementation of robotics solutions and to digitalization projects
- Learn more about financial market regulations and related market interaction of large financial market participants (e.g. institutional investors and globally operating banks)
- Join the team after your internship as a working student

Key requirements / Skills / Experience

- Enrolled as student in an economics, business administration, business information technologies or computer science Bachelor's or Master's degree program
- Very good knowledge of German and English, both written and spoken
- Very good knowledge of MS Office 365
- Very thorough, reliable and independent way of working
- Technical understanding also with regard to digitalization and automation

Additional Information

In order to consider your application properly, we kindly ask for the following documents from your side: CV, Cover Letter, Employer testimonials / references or recommendation letters (if any), University grades/transcripts of records and high-school transcript (if possible) and your current Certificate of enrollment. Please upload these documents when applying for the role.
