

Job Title: Intern or working student (m/f/d) in Digital Solutions for Investment team at AIM SE

Allianz Investment Management (AIM) is the investment management arm of the Allianz Group, responsible for managing the risk/return profile of its approx. € 700 bn investment portfolio. Our global network of more than 500 employees in over 60 countries is organized in regional hubs located in Munich/Stuttgart, Milan, Minneapolis, Paris, and Singapore. It offers multifaceted career opportunities for outstanding investment talents.

AIM provides the perfect opportunity to embark on or continue your international career. AIM continues to grow and supports its employees to do the same. We believe that work should be rewarding, and that good work should be rewarded. We offer opportunities and strive for excellence. And our actions are guided first and foremost by high ethical standards and our sense of commitment to society.

Job purpose/role

As an integral part of the Digital Solutions for Investments (DSI) team you will support a dedicated project on developing and rolling-out an in-house developed portfolio simulation tool. You will work together with Allianz entities globally in supporting them during the tool roll-out as well as managing the introduction of new features to them. You will be part of a small developer team from various departments within Allianz Investment Management (Asset Liability Management, Financial Control/Risk, AIM Singapore) This gives you the chance to contribute to a global start-up like environment within a large company.

Key responsibilities

As an intern/working student, you will:

- Work with an in-house developed portfolio simulation tool
- Manage and support tool enhancements and bug-fixing
- Support the tool roll-out to Allianz entities globally

Key requirements

- Qualifications:
 - Your studies are related to IT, Finance, Mathematics or Statistics with a relation to investments and capital markets
 - You are familiar with financial modelling (bond pricing, derivatives, yield curves, ..)
 - Good knowledge in atleast one object-oriented programming language required (C# or Java is a plus)
- Experience & Key skills:
 - You are interested in capital markets and investment management
 - You have a basis knowledge in coding and are willing to learn more on the job
 - You are fluent in English
 - You can work independently within a very international and dynamic environment

Additional Information

In order to consider your application properly, we kindly ask for the following documents from your side: CV, Cover Letter, Employer testimonials / references or recommendation letters (if any), University grades/transcripts of records and high-school transcript (if possible) and your current Certificate of enrollment. Please upload these documents when applying for the role.
